ODOR CONTROL Service

D1000 Deodorizer

We don't mask odors, we eliminate them!

Aire-Master is best known for excellence in odor control. We tackle tough airborne and surface* odors with our own unique products and deodorant dispensing systems. Aire-Master pioneered the development of a deodorant that kills odors at the molecular level instead of covering them up.

To maintain the quality of our core products, we manufacture them ourselves right here in the heart of America.

Benefits of Odor Control

- 24-hour protection against bad odors
- Complements your daily cleaning
- Projects an image of quality and cleanliness

How Aire-Master Odor Control Service Works

Whether your space is small or large, we'll evaluate your odor problems and offer a solution that eliminates them.

- No equipment to buy
- We install a deodorizing system and maintain it

No matter your space size, we have a scent dispenser for you.

Small Spaces

The **D1000**, our small space deodorizer is perfect for restrooms as well as offices, entries, hallways, small lobbies, waiting areas, and elevators.

Medium Spaces

The **D2000** and **D2500** easily handle meeting rooms, large lobbies, waiting areas, and retail spaces.

Large Spaces

Our **D3000**, **D4000**, and **D4500** programmable diffusers are designed for large indoor environments and big entertainment venues.

Odor buster deodorant bars

The deodorant bars used in our **D1000** and **D2000** are made from recycled materials. They are environmentally safe. The product used is compliant with VOC standards. Each fragrance is a proprietary blend of natural essential oils and fine aromatic compounds.

► ***Surface odor problem?** Ask about our specialty services or see the next page for products that can be used on any surface.
