Aire-Master[®]

SERVICES & PRODUCTS

Since 1958, Aire-Master has provided businesses like yours with a total solution to their odor control and commercial hygiene needs.

Aire-Master is your total commercial hygiene authority by offering you superior odor control and cleaning services.

And we'll keep you supplied with the best in hand soaps, sanitizers, paper products, and concentrated cleaners. We'll make sure you never run out!

Our service representatives pride themselves on being a model of accuracy and reliability. We give you what you demand – excellent service!

Aire-Master's **ADD-ONS**

Small problems that are left unaddressed can turn into big issues. Aire-Master has many unique products to help support the appearance, cleanliness, and odor control systems you have in place. Attention to detail is key in promoting a positive image to your customers. We see the details that are easy to overlook. Our solutions include: screens to prevent clogged urinal drains, floor mats to catch drips and prevent stains, and touch-free equipment that customers appreciate.

Aire-Master helps you deal with the little things before they become big things.

AutoFlush® Clamp

Touch-free toilet and urinal flushing system for tankless fixtures ensures toilets and urinals remain flushed and presentable

AutoFaucet®

This touch-free hand-washing system conserves water by eliminating unnecessary and unattended water flow.

Aire-Master Services & Products

Urinal Screens

Our *Vinyl Urinal Screens* and *Wave Urinal Screens* with enzymes deodorize with fresh fragrances while helping to stop clogs. We will install and replace regularly.

Venus Urinal Shield

This domed shield fits over urinal traps and keeps drains from clogging. Contains enzymes and detergent to reduce soils and help clean surface interiors and drains.

Urinal and Commode Mats

These effective mats absorb urine splashes and drips around urinals and toilets. They also help in preventing bad odors while protecting floors from stains.

Bowl Block & Pottie Blue

This product is placed in the toilet's tank to reduce soil retention on interior surfaces and drains with deodorants, detergents, water conditioner, and blue coloring.

Baby Changing Station

Each service period Aire-Master will clean all surfaces of these units to remove soils and then apply hospital grade disinfectants to eliminate bacteria and germs.

Can Liners, Gloves, and More!

Ask about Aire-Master's full line of trash can liners, toilet seat covers, feminine hygiene, sanitary disposal products, and disposable gloves.

Quality. Service. Solutions.
