

Aire-Master **tackles** the tough stuff

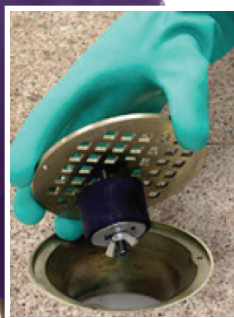

An aggressive, deep-cleaning service

How clean are your restrooms? Customers assume your quality standards are only as good as the cleanliness of your restrooms. This can seriously affect your reputation.

Aire-Master can help! We thoroughly clean rest room sinks, toilets, and urinals inside and out. This complete, in-depth cleaning includes hard to reach areas where germs breed and odors develop.

We also destroy bacteria with EPA registered, hospital-grade disinfectants that are safe for use on all surfaces and are excellent alternatives to bleach.

Aire-Master's deep-cleaning service, along with our powerful cleaners, tackle all the tough rest room jobs and leaves a great impression of you with your customers.

"My Aire-Master service rep is awesome! They have a wonderful personality. The bathrooms always sparkle and the restrooms always smell good!"

—Erin, Kentucky Fried Chicken

Aire-Master®

Make an **impression** that lasts

Aire-Master tackles the tough stuff, which allows your staff to stay on schedule by allowing them to focus on the daily cleaning.

► **We do this by:**

- Cleaning all porcelain inside and out
- Remove tough, built-up soils
- Cleaning all those hard-to-reach places
- Cleaning fixtures to help with odor control

Elbow Grease

We aren't afraid of a little hard work, if that's what it takes to get your fixtures clean!

Detective Work

Hidden soils can breed germs and cause odors. We find and remove this unseen build-up.

Do No Harm

We know how to remove hard water and calcium build-up without damaging finishes.

Killing Germs

We use hospital grade disinfectants to eliminate bacteria on fixtures and all touch surfaces.

Don't **forget** floor and walls!

Over time, odor-causing soil gets trapped and accumulates in floor surfaces and grout. **Aire-Master** removes built-up soil, stains, chemical residue, and grease from floors, grouting, and walls. Floors are left clean, dry, and odor free.

► **This superior and aggressive cleaning process includes:**

- Scrubbing floors and walls, including grout
- Removing soil build-up with high-pressure sprayer
- Extracting all soil, water, and odors into holding tank
- Drying floors and walls for safe, immediate use

"We tackle the tough stuff!"
