

Floor & Wall

Let us tackle the tough stuff!

Over time, odor-causing soil gets trapped and accumulates in floor surfaces and grout. **Aire-Master** removes built-up soil, stains, chemical residue, and grease from floors, grouting, and walls. Floors are left clean, dry, and odor free.

Aire-Master offers a unique odor control solution to your floor and wall cleaning needs. We will remove built-up soil, stains, chemical residue, and grease from your floor, grouting, and walls. Soils and odors will be removed, leaving your floor safe and dry.

How It Works

- Scrubbing floors and walls, including grout
- Removing soil build-up with high-pressure sprayer
- Extracting all soil, water, and odors into holding tank
- Drying floors and walls for safe, immediate use
