

# Fly Control **Service**

Let us tackle the tough stuff!

We'll help manage your fly and fruit fly problem with our fly control service. We use a combination of safe, effective insect control products to establish a line of defence against these vile offenders.

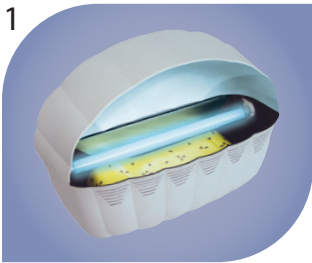

With Aire-Master's fly control service, our representatives will inspect all equipment each service period and make sure your dispensers or UV lights are in good working order by replacing cartridges, cans, and batteries as needed.

### Benefits

- A service plan tailored to your needs
- Helps keep your patrons safe from disease
- Regular inspection and maintenance of equipment
- Meets all applicable USDA and FDA guidelines

Flies are suspected of transmitting at least 65 diseases to people.

ALSO AVAILABLE:

### 1 Insect Inn Ultra II

UV light draws flies and other insects already inside a building to the trap. Once they are in the trap they are stuck and never leave. Covers 4,000 square feet.

### 2 Fruit Fly Patrol

Powerful enough to eliminate your fruit fly problem up to 1,000 square feet. UV light to draw pests in. Place on surface or mount on wall.

### 3 Blue Lagoon

Contains citronella oil—a natural insect repellent. Simply spray problem areas to help repel flies. Use around doors, windows, floor drains, trash and dumpster areas.

### 4 Metered Aerosol System

Features an auto-default mode sprays every 15 minutes—24-hours a day! Contains Quest-On-Time Insecticide.
