

Simple. Safe. Save!

An elite, easy-to-use
cleaning service.

Aire-Master's new proportioning system will help your cleaning crew save time and money and be safe while doing it. With our complete line of high-quality disinfectant and cleaner concentrates, your staff will have everything they need at their fingertips to tackle the toughest grime and odor. If you can turn a dial you can operate the Aire-Master proportion system. It's that easy!

And don't worry about setting it up. Our service representatives will install, provide on-site training, and maintain your new proportioning system for you. You'll reap the many benefits of having an Aire-Master proportion system!

▶ Check out the back to learn more about our superior cleaning concentrates!

Simple

Aire-Master makes things easy! We'll install and configure your equipment as well as provide on-site training. Your new proportioning system is fool-proof too. All that's left to do is to simply fill the product trigger bottles — all the measuring is done for you.

Safe

Using closed-looped technology, our proportioning system keeps chemicals safe from misuse, waste, and theft. Also, we'll provide you with product information so you can be confident that you'll be in compliance with local and federal guidelines. We'll even provide service and maintenance when needed.

Save

Without compromising on quality, Aire-Master's proportioning system adds the right amount of concentrated cleaner. Each half-gallon of our high-quality concentrate makes over 128 quarts, which means huge cost savings for you! Check out our effective, cost-saving chemicals on the back.

Aire-Master

**Switch from your ready-to-use cleaners to Aire-Master's concentrates and you could save up to 75% in your cleaning budget!*

A cleaning arsenal that **tackles** it all!

From ceilings to floors and everything in between, Aire-Master is your one-stop resource for all your cleaners and disinfectants. You'll experience huge savings with our concentrated cleaners—and we didn't compromise on quality either. Our products work! That's because they are specially formulated to tackle the toughest grime and odor on the planet! Let us set up an Aire-Master proportioning system for you to help your staff save time and money.
